

How to change your college network password

Students must change their password from "Student ID" to whatever is easy for them to remember. Students must do this very first time they login to college computer and/or if possible before login to Moodle for the first time.

Step 1 - Press Ctl + Alt +Delete (simultaneously) on your keyboard.

Step 2 - Click on "Change Password"

Step 3 - This will open up password changer window. At this point you can type in your old password and also type in the new password.

Note : For the very first time your "old password" is your student ID. If you have already changed your password then type in whatever is your current password as "old password".

Step 4 - Use your new password to login to your college computer, Moodle and student Mail.
